ESTIMATED COST

In determining the cost of this legislation, the Civil Service Commission in its comments on the same proposal observed that:

"To the extent that employees delayed retirement by a few months they would (1) pay contributions to the Fund for a longer period, and (2) not receive any annuity for those months--a combination necessarily resulting in more money in the Fund. On the other hand, to the extent that employees who would have retired after the effective date of the cost of living increase anyway receive a higher annuity than they would have received if they had retired on the effective date, more money would be paid out of the Fund."

It is estimated that the legislation will increase the unfunded liability of the CIA Retirement and Disability Fund by [] in the case of retirees and survivors since 2 July 1973 and by about \$ [] for those who would be made eligible for the cost of living adjustment which is scheduled to take effect on 1 January 1974. (the [] figure was arrived at by applying the correlation which exists for the Civil Service system estimate of unfunded liability for the class of retirees and survivors whose annuities become effective after 1 July 1973 and 1 January 1974).

Under proposed draft legislation which would place the funding of the CIA Retirement Act on the same basis that applies to the Civil Service retirement system, there would be paid by the Treasury a certain amount of the interest due on the additional unfunded liability of [] which is created by this legislation. Using a five percent valuation the interest due would amount to [] per annum and over a five year period the payments into the Fund would amount to:

10. [] Met with Frank Slatinshek, Chief Counsel, House Armed Services Committee, and gave him a copy of the Director's letter to Representative Nedzi and briefed him on my conversations with Nedzi. I also briefed him on the Soviet Kara Class Cruiser modifications. I received from Slatinshek a copy of a letter from Representative Angelo Roncallo (R., N. Y.), together with the "Aviation Week and Space Technology" article of 5 November by Cecil Brownlow, referenced in Roncallo's letter. Slatinshek told me he had talked briefly with [] about this item.

I also discussed with him proposed Agency legislation amending the CIARDS to provide a cost of living increment upon retirement, and told Slatinshek I expected to deliver the package to him tomorrow.

11. [] Met with Representative Melvin Price (D., Ill.), who told me that Ed Bauser had briefed him on the change in ratings of a technical matter discussed last week. He asked about [] 25X1A [] who is under consideration for a staff position in the Committee. I gave him the same information given Slatinshek earlier at the time of [] application was filed with the Committee. With regard to the Intelligence Subcommittee Watergate report, Price feels that the Committee conducted the most extensive hearings of any of the hearings with regard to CIA involvement and that on balance, the report is a good one. He looks forward to further hearings on Agency operations, which probably will not get underway until after the first of the year.

3. [] I met with Ed Braswell, Chief Counsel, Senate Armed Services Committee, and reviewed with him the matter of our interest in obtaining for CIARDS the recent cost-of-living increase approved for the Civil Service Retirement System. Braswell said he had no problem with this except the possible matter of time left in this session for getting any legislation on the floor and suggested that we get this bill to the Committee as quickly as possible. He also expressed the hope that our transmittal material cover the particular effect which this legislation would have on the CIARDS.

25X1A

I also briefed Braswell on our plans [] and left with him the Agency's report on S. 1547, a bill to establish a Joint Committee on National Security.

Jim Woolsey, of the Committee staff, joined us for a few minutes and briefed both Braswell and myself on Senator Nelson's intention to introduce a bill to establish a Joint Committee on Domestic Intelligence. Woolsey said that Senator Jackson's staff has contacted him on this legislation and indicated that Jackson is interested in cosponsoring the Nelson bill but wants to be certain that CIA, DIA, NSA, and any other agencies within the foreign intelligence field are excluded from the jurisdiction of the Committee. Woolsey said he has suggested several possibilities to Jackson's staff. He would prefer a specific exemption for the Agency and other foreign intelligence components but he understands that Nelson will not accept this. Woolsey's fall-back position is to have Nelson include in his bill the same language which is in the Stennis bill (S. 2597) setting forth the extent of CIA's involvement in domestic activities. I expressed the view that it would be unfortunate if this kind of substantive language were included in legislation which would be outside the jurisdiction of the Armed Services Committee and suggested as an alternative that language be put in the Nelson bill which would exclude various intelligence agencies by definition since their function is one of foreign rather than domestic intelligence.

10. [] In the company of [] 25X1A discussed with Jim Oliver, OMB, the proposed funding amendment to CIARDS which Oliver claimed would result in a public line item under the Secretary of Treasury's account for interest paid into the CIA Retirement Fund. After a general discussion of several possible alternatives and their implications, I said we would have to staff the problem out to the program managers involved and Mr. Colby before recommending an Agency position.
